

HIGH PRESSURE COMPRESSOR SPECIFICATIONS

1. General

Multistage (3 stages) air compressor air cooled type and direct – coupled by elastic coupling to an electric motor.

The compressor and the motor shall be mounted on common steel sub frame suitable for floor installation (vibration free support).

The offer will correspond to a number of pieces:1.

2. FEATURES

1. Final operation pressure 120 bar
2. Air compressor delivery 1100 lt/min
3. Stages 3
4. Cylinder count 3
5. Drive speed 1500 rpm
6. Outlet temperature 10 °C
7. Operating temperature +5 +40 °C
8. Noise level 90 dB
9. Weight 650 kg max.
10. Warranty 18 months

3. Electric motor

The motor shall be suitable for 3 phase supply 380 kV, 50 HZ between phases.

Max. Ambient temperature 40°C and will start up attached to a start – delta system.
